

WORDS FROM THE RECYCLE-WISE

“Use it up, wear it out, make it do, do without.”

~ depression era slogan ~

In tough economic times ‘reducing, reusing, and recycling’ make a lot of financial sense! Recycling is incredibly easy to do, and so very important for the environment. Whether you are living in a single family home, apartment, townhouse / condo, or business - you can recycle the same products. It doesn’t matter if you’re using recycle boxes, residential recycling carts, or the big recycling carts, the program basics stay the same.
