Did You Know?

All prescription drugs, as well as over-the-counter drugs and natural health products in oral dosage form, are now part of a new stewardship program the **Ontario Medications Return Program (OMRP)**.

What is OMRP?

The Ontario Medications Return Program is the safe and easy way to dispose of medications we all have in our homes. The purpose of the OMRP is to recover drugs that are expired or no longer needed and prevent them from being disposed of in the garbage or poured down sewers and drains.

Why Health Products?

Keeping medicines around the house is not safe, especially if you have children/teenagers who could take the medicine by accident. Expired medications can be ineffective or even toxic. Prescription drugs, including over-the-counter medicines, can also be subject to reuse, misuse, theft and abuse. Flushing your medicines down the toilet or drain, or tossing them in the garbage, is not recommended.

Securing Medications in the Home

Current child-resistant packaging, while helpful, is not alone sufficient to prevent children's/teens access to medications. You can have an immediate impact by securing all medications in the home in a safe and secure location which is out of sight.

How do I dispose of medicines?

Just take the medications in their original containers (plastic bottles or blister packs, but not outer packaging), remove any personal identification, such as your name, and stop by one of our participating pharmacies across the province. Drop off your bag with the pharmacist. Not sure where to go? Visit www.healthsteward.ca for the pharmacy nearest you.

What happens to my medicines?

The OMRP will ensure the safe and appropriate storage and disposal of all your medications, according to health and environmental regulations.

What about needles, syringes or other sharps?

This program is for medications only, a sharp disposal program is available as well, ask your pharmacist for sharps approved containers.

Questions?

Call your pharmacist or send us an e-mail at info@healthsteward.ca

Who is HPSA?

Health Product Stewardship Association (HPSA) is a not-for-profit association funded and governed by the health products industries.
