

# Addendum No. 1

November 4, 2020

**RFT -Provision of Equipment and Labour for the Processing/Grinding of Organic Waste at Transfer Station #2 and the Essex-Windsor Regional Landfill Composting Site (RL) and/or the Processing/Grinding of Organic Waste at the Windsor Public Drop Off (T1) Site including the Hauling of this ground Organic Waste to the Regional Landfill**

**Re: Questions submitted to the EWSWA**

**Question 1:**

Can I do a site visit?

**Answer 1:**

Although it is not a requirement of this tender, the proponent is welcome to contact Authority staff to arrange a site visit before November 16, 2020 to see where the Work would occur per the following:

T1- Cathy Copot-Nepszy- [ccnepszy@ewswa.org](mailto:ccnepszy@ewswa.org)

T2 and RL- Tom Marentette- [tommarentette@ewswa.org](mailto:tommarentette@ewswa.org)

**Question 2:**

Can we do the Work weekly on a regular day (e.g., every Monday) at T1 rather than doing the Work over a long period of time (e.g., 10 consecutive work days in a row at T1)?

**Answer 2:**

In order to maintain consistency and quality in the composting process (e.g., turning, curing, screening, testing), the contractor historically completes this Work in a time period of consecutive days at the discretion of the Authority which is based on incoming material, etc. such as:

T1: 5-12 consecutive work days in a row.

T2: 2-3 consecutive work days in a row.

RL: 7-10 consecutive work days in a row.
